# Background

- Agile Methodology
- Daily Scrum - 15mins
- Daily Testing
- Weekly Meetings - Group Discussions

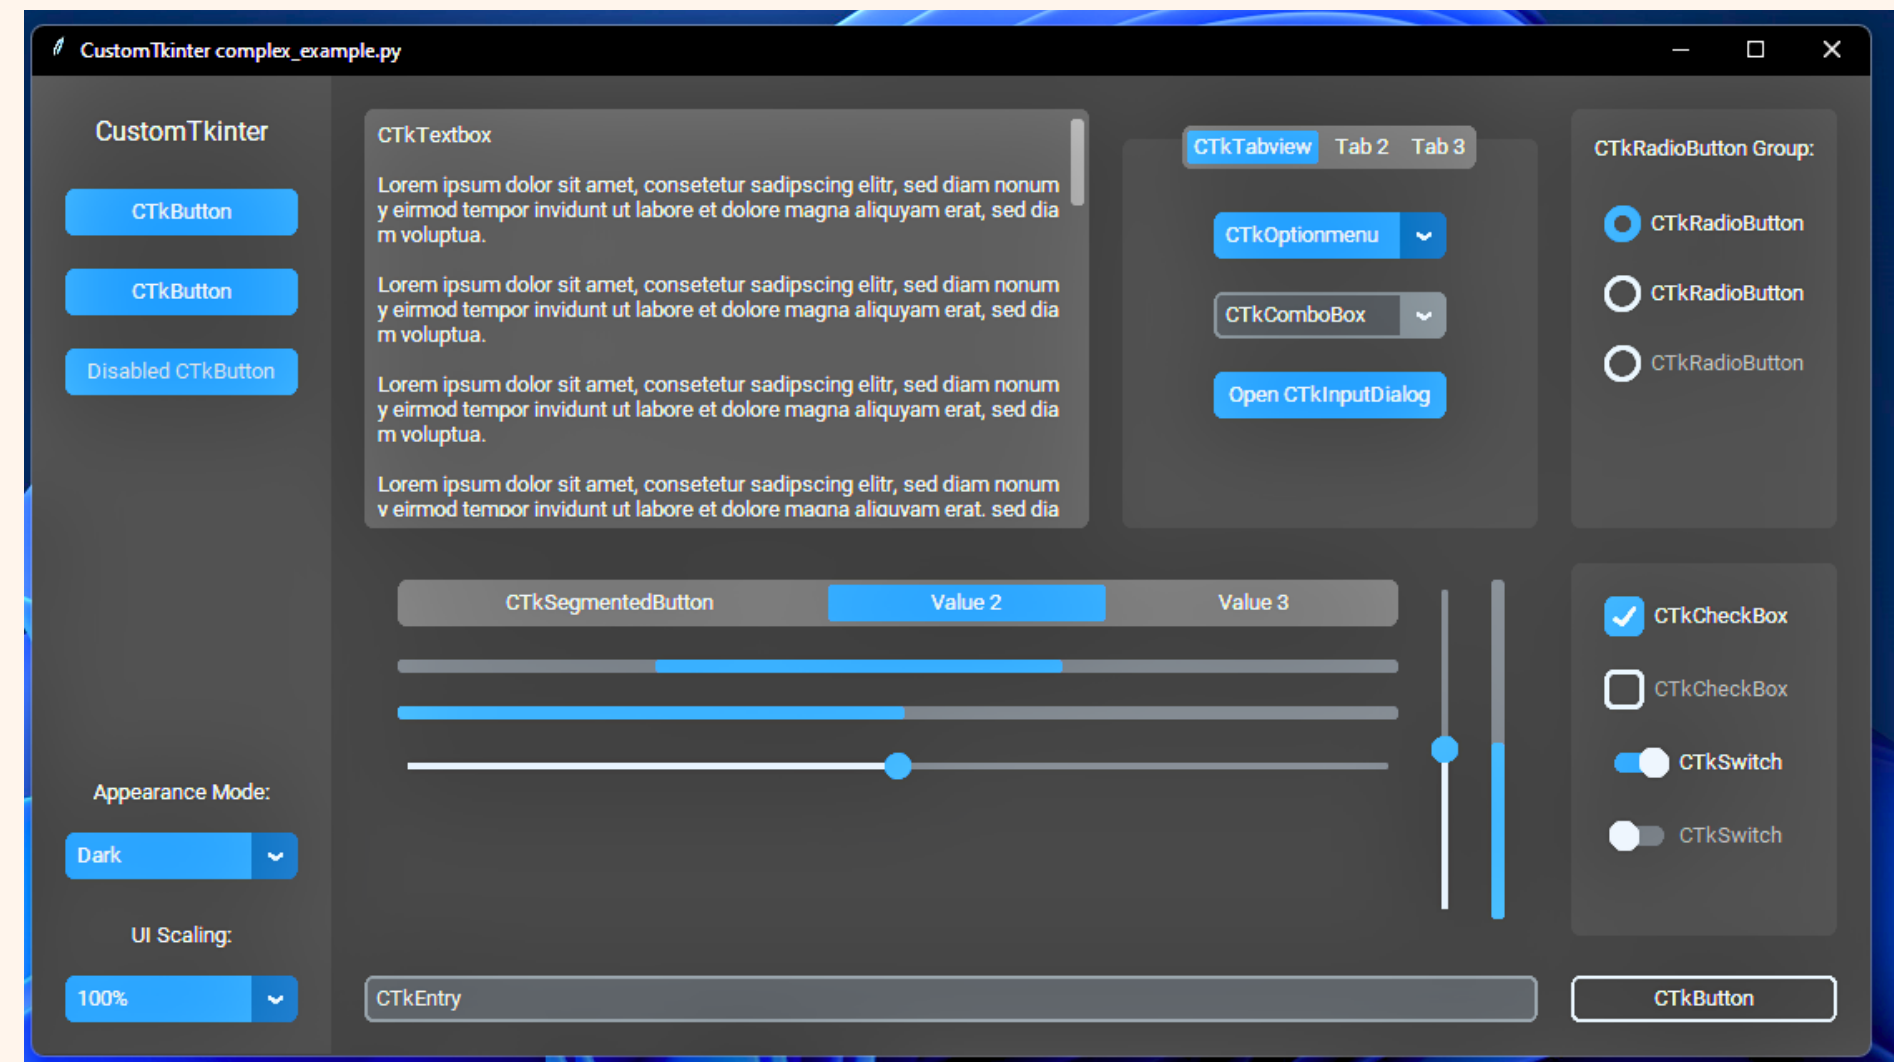

# Background

- 
- The rise of the EV wave
  - Types of vehicles
  - Tasked with creating an e-vehicle rental application
  - We used SQLite, Custom Tkinter (an enhanced version of Tkinter), good ol' Matplotlib and Pandas
- 

# Custom Tkinter

- Created by Tom Schimansky in 2021
- Enhanced Version of Tkinter
- Provides the application with a modern and uniform UI creating a clear US as well

The background features several organic, flowing shapes in shades of pink, peach, and brown. In the top left corner, there are several small, dark brown circular spots. A large, light orange oval with a white dashed border is centered on the page, containing the text.

# **The Actual Application**

THANK YOU  
SO MUCH!
